

The following three things are required, per Medicare guidelines, to provide eligible patients with diabetic shoes and inserts.

- ***Completed Statement of Certifying Physician (MD or DO who treats for the patient's diabetes) confirming patient meets the Medicare guidelines for eligibility for shoes and inserts. At least ONE of the six conditions must apply for patient to qualify for shoes and inserts.***
- ***Office notes from the physician that is treating the patient for their diabetes that state the diagnosis and provide documentation that a foot exam was performed. Diagnosis must agree with the completed Statement of Certifying Physician (diabetic CMN).***
- ***Signed detailed prescription with the correct description, coding and justifications stating medical necessity for the shoes and inserts.***
