

PATIENTS' RESPONSIBILITIES

1. The patient must give complete and correct information to the best of their ability. This includes but is not limited to:

- the patient's complaints
- past illnesses
- medications
- other details about the patient's health

2. The patient needs to tell the professional of any changes in the patient's health.

3. The patient needs to tell the staff if they do not clearly understand what is expected of them or the plan of care.

4. The patient must follow the treatment plan for their care and the instructions.

5. The patient needs to keep all appointments. If patients cannot do this, they must call the office as soon as possible to reschedule.

6. The patient is responsible for their actions if they do not follow the treatment plan.

7. The patient needs to respect the rights of other patients and staff.
